## Analytical Skill Development Program

- AES offers training programs designed to meet the needs of all levels of students or professionals in the field of laboratory analysis.
- AES is also the study centre for IGNOU for the course on Post-Graduate Diploma in Food Safety and Quality Management.
- Our training courses offer limited class size to ensure maximum learning with an added advantage of interaction with our technical experts.
- The eligibility for attending this program is minimum B.Sc./B.Tech Degree, or completion of 12<sup>th</sup> class with a minimum of one year relevant lab experience.

## Your Knowledge Partner

We offer Training Programs to the budding professionals to enhance their abilities & polish their ongoing skills. These programs are delivered by experts from the Industry who not only unshackle doubts but also help candidate in gaining hands-on experience on high-end technologies.

Our programs can be tailor made matching your distinctive requirements or your exclusive potential after consultation with the employers & diligent authority.

## Who should join

We invite all those who want to learn basic principles and gain a more fundamental approach to the current technologies, who are interested in pursuing a laboratory career or a career in biotechnology, environment, microbiology, or food sciences.

## We provide:

- ➔ vocational certification
- ➔ Open-house discussions
- ➔ Consultancy
- ➔ Short-term Training (5 Days)
- ➔ Project training (3-6 Months)
- ➔ Semester Break training (15-30 Days)

## Analytical Skill Development Program

### What do you gain

The program is beneficial to fresh graduates who are looking forward to establish themselves in industrial quality control and research labs and also to working professionals who get an opportunity to upgrade their skills and awareness of the advances in the technique.

The learners get the additional benefits of understanding work place environment through interaction with highly skilled staff. The program also lays stress on basic laboratory procedures which often get overlooked in university curriculum.

### Why choose us

At AES, we understand & believe in the fundamental of 'pace with space'. The trainees' needs are addressed depending upon their caliber & improvement areas. Our goal is to enhance learning so that our valued patrons can amplify their work performance & reach for the skies.

### Our Programs

- Analytical techniques in Food & Agricultural Products (physical, chemical & microbiological)
- Analytical techniques of Residues in Water & Food Products
- Analytical techniques of Air, Gases, Pollutants, Petroleum, Water & Waste Water
- Analytical techniques in Basic Microbiology
- Customized Training on:
  - ISO 9001:2000/2008
  - ISO 22000:2005
  - ISO 17025

### SERVICES AVAILABLE

- Food Laboratory
- Environment Laboratory
- Microbiology Laboratory
- Petroleum Laboratory
- Material Laboratory
- Chemical Laboratory
